## Detailed Action

### *Reasons for Allowance*

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

This application is for a disk drive.

- **Claim 1** specifies a disk drive, which requires:

*“...a **PWM controller** for generating the PWM control signals applied to the driver switches in response to the PWM timing signals, wherein the command to timing block, PWM controller, driver switches, and voice coil comprise a plant transfer function; a **current detector** for detecting a current flowing through the voice coil, a **plant model** comprising a model transfer function for generating the estimated state of the VCM in response to the detected current flowing through the voice coil; and a **correction block**, responsive to the detected current, for adjusting the PWM timing signals so that the plant transfer function substantially matches the model transfer function.”*

These features, in combination with the other features of Claim 1, are not anticipated by, nor made obvious over, the prior art of record.

- **Claim 10** specifies a disk drive, which requires:

*“...adjusting the PWM timing signals in response to the detected current so that a plant transfer function of the VCM and driver switches substantially matches a model transfer function.”*

These features, in combination with the other features of Claim 10, are not anticipated by, nor made obvious over, the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

4. The closest prior art is Hunter (US 6,097,564) *but does not show adjusting the PWM timing signals in response to the detected current so that a plant transfer function of the VCM and driver switches substantially matches a model transfer function.*

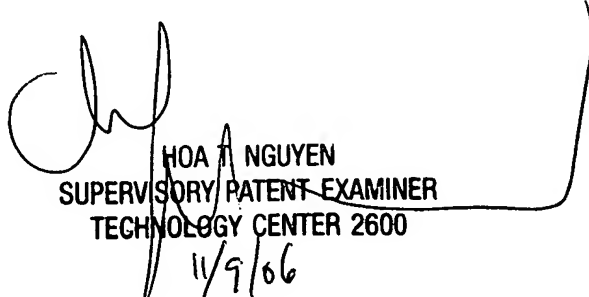

***Conclusion***

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Blouin whose telephone number is 571-272-7583. The examiner can normally be reached on M-F from 6:00 to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ms. Hoa Nguyen, can be reached on 571-272-7579. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
